

# THE ORGANIZERS

## MBCET

The Mar Baselios College of Engineering & Technology was established in 2002 by the Malankara Syrian Catholic Church and is situated in one of the largest educational campus in India - Mar Ivanios Vidyannagar. The college is affiliated to APJ Abdul Kalam Technological University. The College is accredited by NAAC with 'A' grade and all B.Tech programmes are accredited by NBA.

## LNCP

The Lakshmi Bai National College of Physical Education (LNCP) is a part of the academic wing of the Sports Authority of India (SAI) established in the year 1985. The college aims to serve as a National level Sports Training Center and Institute offering undergraduate, post-graduate and research programmes and is affiliated to the University of Kerala. The fifty acre campus is located at the northern side of the Kariavattom campus of University of Kerala.

## IET

The Institution of Engineering and Technology (IET) is one of the world's largest Engineering Institutions with over 168,000 members in 150 countries. The 'IET-MBCET On Campus', is a Student Chapter of The IET. The chapter aims to help the student community in updating knowledge about the technologies applied in various domains through planned professional development thus making them more competent.

NEXUZ'19 is organized by the IET MBCET On Campus in joint partnership with MBCET and LNCP.

**IET** The Institution of Engineering and Technology

**NEXUZ'19**

The International Summit on the Applications of Engineering In Sports

**16 & 17  
AUGUST 2019**

# NEXUZ

Isn't it rather curious that engineering can find itself fruitful in the often ignored niche fields? NEXUZ- a brand new and unique undertaking of IET MBCET On Campus aims to invoke this semantic omniscient nature of engineering in the current world. The multiday event with an assortment of forums, discussions and exhibits focuses on enhancing one's knowledge in the applications of Engineering in an alternating chosen field.

## NEXUZ'19

A basketball champion and a computer analyst having something in common on a professional front is quite an intriguing thought. The very thought that led to the design of this year's event as a platform to nexus "Engineering" with "Sports". Nexuz'19 plans to bring forth a synergy between aficionados, academics, industries and students with a rigour in multitudinous domains in sports.

Nexuz'19 is also concerned about the equity of the fruits of technologies for the differently abled throughout the event.

Nexuz'19 values the ideas of all those whose perspectives can contribute to the vision of linking engineering with sports.

Thus Nexuz'19 attempts to be a palette to widely colour sports with engineering.

The entirety of NEXUZ'19 will be centered around the following four elements:

- 01 XPERT TALKS**  
*Experience speaks in volumes.* This series of talks handled by seasoned experts, aims to inform and influence the listeners about advancements in this field.
- 02 XCEL**  
*Theory to be practiced must be articulated.* This paper presentation session is an incentive for academics and scholars to present their detailed and formulated ideas.
- 03 XPO:**  
*To market is to exhibit.* Xpo serves to be an open forum with an exhibition of products and a stage for aspiring minds to present their ideas to the pioneers in the industry and academic realms.
- 04 XPRESS:**  
*Vibrant ideas require deliberation.* Xpress covers the diverse dimensions of the sports industry. An open arena to address the popular doubts and questions one may have about the sports field.

NEXUZ - Delegate Registration	INR	USD
Access to all NEXUZ events Registration Kit, Certificate of Participation, Networking Lounge, Lunch & Refreshments -2 Days, included		
Company*	3000	60
